Subject: Proteco Landfill Superfund Site: Request to Confirm Date and Time for the Site Reconnaissance Visit

Hello Zolymar,

We would like to request that EPA confirm Tuesday, May 3, 2022 as the date for the Proteco Landfill Superfund Site Reconnaissance Visit. We would suggest the Site Reconnaissance Visit begin at approximately 10:00 AM local time.

For your information, the Site vegetation clearing work was sufficiently completed on Friday, April 8, 2022 to allow for the Site Reconnaissance Visit to be conducted. Also, the staking and survey of the waste units should be completed this week. Additionally, during the vegetation clearing work the biologist identified two (2) areas which contained bird nests. These two areas were cordoned-off and the vegetation was not cut. One nest area was a Puerto Rican Nightjar and the other nest area was a non-endangered songbird. The bird nesting season runs from late January through June. These two nesting areas will be cleared, if necessary, later in the year when nesting season is over. These areas are less than ¼ acre and are not in an area where future work is anticipated.

We look forward to receiving your confirmation that the date for the Site

Reconnaissance Visit will be Tuesday, May 3, 2022.

Best Regards,

Dan Gainer, PG CSM
